FUND SCHOOL VOUCHERS

The **School Choice Campaign** is currently providing vouchers to **808 children** and helping them escape the crumbling government education system. For these poor students, vouchers have proven to be a tool of empowerment allowing them access to schools offering better quality education and enabling them to hold these schools accountable for performance. Please support these children by **funding their school voucher** which will guarantee them one more year of quality education.

Under the **School Choice Campaign** you can fund two voucher projects – **Delhi Voucher Project** launched in 2007 and **School Voucher for Girls** in 2009.

Delhi Voucher Project: Under this project 408 students from 68 wards in Delhi were awarded vouchers. **We received 120,000 applications!** An assessment of the program demonstrated that voucher children have academically outperformed those still studying in government schools. More importantly for the future of these children, it indicated close to a **20% increase in the involvement of parents** in their education after receiving vouchers.

School Voucher for Girls: This project funds the education expenses of 400 girl children from a poor minority community for four years. By targeting this traditionally disadvantaged group our project seeks to address gender-based discrimination in education through vouchers.
